

INSTALLATION MANUAL

IMPORTANT SAFETY PRECAUTIONS

Before you begin, read these instructions completely and carefully.

- Be certain electrical power is OFF before and during installation, maintenance and removal.
- Luminaire wiring must be properly grounded in accordance with the NEC and any applicable local code requirements.
- Use only UL or IEC approved wire for input/output connections.
- Verify that supply voltage matches voltage on luminaire label. Installation to any other connection may void the warranty.
- Wear gloves during installation to prevent injury and do not expose wiring to metal or sharp edges.
- Do not install in areas subject to combustible vapors or gases. Verify luminaire location ratings are suitable for installation environment (refer to specification sheet as needed).
- Do not restrict luminaire’s ventilation by covering with material that will cause luminaire to overheat and potentially shorten the lifespan.
- Ensure LED luminaire has the correct polarity before installation.

WARNING: To reduce the risk of personal injury or property damage from fire, electrical shock, abrasions, burns and all other hazards, read all provided warnings and follow installation instructions. This product should be installed, inspected and maintained by a qualified electrician. Installation of luminaire must be in accordance with NEC and local code requirements.

DIMENSION

Dimension(Inch)	A	B	C	D	E	F	G
P21 (59")	59"	2.36"	3.07"	4.45"	1.61"	0.98"	4.92"
P21 (118")	118"	2.36"	3.07"	4.45"	1.61"	0.98"	4.92"

Installation Diagram

1. Turn off power supply.

2. Pass the power cord through the center hole of the ceiling junction box.

3. Connect the ground wire on the bracket to the ground wire in the hanging accessory with toothpaste cap screw terminal.

4. Connect the lamp input line and the hanging power line with the rotating terminal, align the lamp slot with the buckle of the mounting bracket and install it upwards, and rotate the lamp to a completely fixed position.

5. Pass the hanging power cable through the center hole of the ceiling plate, adjust the fixing cable clip to an appropriate length and tighten it with the screw.

6. Wrap the figure-eight buckle around the wire to prevent it from falling off.

7. Fix the hanging bracket to the junction box with screws.

8. Fix the ceiling plate to the hanging bracket with screws.

9. Check the reliability of the installation, then turn on the power to confirm that the lamp lights up normally, and the installation is complete.
